SUMMARY

Highly experienced Lead Facilities Engineer with a strong background in facilities management, mechanical engineering, and energy management. Proven track record of delivering high-quality facilities solutions that meet business needs and exceed expectations. Skilled in team management, budgeting and cost control, facility audits and risk assessments, and lean facilities management. Strong leadership and communication skills, with experience working with cross-functional teams to drive business results.

SKILLS

- Facilities Management
- Mechanical Engineering
- Energy Management
- Team Management
- Budgeting and Cost Control
- Facility Audits and Risk Assessments
- Lean Facilities Management
- Communication and Collaboration

EXPERIENCE

Lead Facilities Engineer Jan 2018 - Present
ABC Corporation New York, USA
Leading a team of facilities engineers to design, develop, and implement facilities solutions for a 1 million sq. ft. corporate campus.

- Designed and implemented a centralized facilities management system, resulting in a 25% reduction in energy consumption and a 30% decrease in maintenance costs.
- Developed and managed a \$10 million capital budget for facilities projects, ensuring timely and within-budget delivery of all projects.
- Collaborated with cross-functional teams to develop and implement a comprehensive facilities management plan, resulting in a 20% increase in employee satisfaction.
- Conducted regular facility audits and risk assessments to identify areas for improvement and implemented corrective actions, resulting in a 15% reduction in facility-related incidents.

Senior Facilities Engineer Jan 2015 - Dec 2017
DEF Company California, USA
Responsible for the design, development, and implementation of facilities solutions for a 500,000 sq. ft. manufacturing facility.

- Designed and implemented a lean facilities management system, resulting in a 12% reduction in production downtime and a 10% increase in overall productivity.
- Developed and managed a \$5 million capital budget for facilities projects, ensuring timely and within-budget delivery of all projects.
- Collaborated with production teams to develop and implement a comprehensive maintenance plan, resulting in a 25% reduction in equipment failures.
- Conducted regular facility audits and risk assessments to identify areas for improvement and implemented corrective actions, resulting in a 10% reduction in facility-related incidents.
