Summary

Dedicated and compassionate Cardiovascular RN with 8+ years of experience in providing high-quality patient care, with a strong background in cardiovascular nursing, and a proven track record of improving patient outcomes and satisfaction.

Experience

Cardiovascular RN

Mercy Hospital • Chicago, IL • Jan 2018 - Present

Provided direct patient care to cardiovascular patients, including those with heart failure, coronary artery disease, and arrhythmias.

- Developed and implemented individualized care plans for patients with cardiovascular conditions, resulting in a 25% reduction in readmissions.
- Conducted thorough assessments of patients' physical and emotional needs, and prioritized care accordingly.
- Administered medications, including anticoagulants, antiarrhythmics, and beta blockers, with a 95% adherence to medication administration protocols.
- Collaborated with interdisciplinary teams to develop and implement evidence-based practice guidelines, resulting in a 30% reduction in hospital-acquired complications.

Telemetry RN

Northwestern Memorial Hospital • Chicago, IL • Jun 2015 - Dec 2017

Provided care to patients with various cardiac conditions, including myocardial infarction, heart failure, and arrhythmias.

- Monitored and interpreted cardiac rhythms, including ECGs and telemetry readings, with a 99% accuracy rate.
- Assessed and prioritized patients' needs, and developed individualized care plans, resulting in a 20% reduction in patient length of stay.
- Educated patients and families on disease management, medication adherence, and lifestyle modifications, resulting in a 25% increase in patient satisfaction.
