EXPERIENCE

UI/UX Engineering Manager

Jan 2020 - Present

Google

Mountain View, CA

Lead a team of 10 UI/UX engineers to design and develop scalable, responsive, and accessible interfaces for Google's flagship products.

- Collaborated with cross-functional teams to identify project requirements and develop solutions that meet business objectives
- Designed and implemented A/B testing frameworks to measure user engagement and conversion rates, resulting in a 25% increase in sales
- Developed and maintained design systems, ensuring consistency across products and features
- Mentored junior team members, providing guidance on design principles, best practices, and industry trends
- Worked closely with product managers to develop product roadmaps, prioritizing features and requirements based on customer feedback and market research

Senior UI/UX Engineer

Jun 2018 - Dec 2019

Amazon

Seattle, WA

Designed and developed user interfaces for Amazon's e-commerce platform, focusing on usability, accessibility, and performance.

- Designed and implemented responsive, mobile-first interfaces for Amazon's product detail pages, resulting in a 15% increase in mobile sales
- Collaborated with developers to ensure seamless integration of UI components with backend services
- Conducted user research and usability testing to inform design decisions and identify areas for improvement
- Developed and maintained a design system for Amazon's product pages, ensuring consistency and reducing maintenance costs by 30%
- Worked closely with product managers to develop product requirements and prioritize features based on customer feedback and business objectives
