SUMMARY

Highly experienced Principal Facilities Engineer with 10+ years of experience in designing, developing, and implementing facility upgrades and expansions. Proven track record of improving facility reliability, reducing energy consumption, and increasing production capacity. Strong technical skills and experience in mechanical engineering, energy efficiency, and predictive maintenance.

EXPERIENCE

Principal Facilities Engineer

Jan 2015 - Present

ABC Corporation

New York, NY

Leading facilities engineering team to design, develop, and implement facility upgrades and expansions, resulting in 25% increase in production capacity and 15% reduction in energy consumption.

- Developed and managed \$10 million capital budget for facility upgrades and expansions
- Improved facility reliability by 30% through implementation of predictive maintenance program
- Reduced energy consumption by 10% through installation of energy-efficient lighting and HVAC systems

Senior Facilities Engineer

Jun 2010 - Dec 2014

DEF Company

Chicago, IL

Managed facility engineering team to design, develop, and implement facility upgrades and expansions, resulting in 10% increase in production capacity and 5% reduction in energy consumption.

- Developed and managed \$5 million capital budget for facility upgrades and expansions
- Improved facility reliability by 20% through implementation of preventive maintenance program
- Reduced energy consumption by 5% through installation of energy-efficient lighting and HVAC systems

SKILLS

- Facility Design
- Project Management
- Mechanical Engineering
- Energy Efficiency
- Predictive Maintenance
- Leadership
- Communication
- Problem Solving

EDUCATION

Bachelor of Science in Mechanical Engineering

Aug 2005 - May 2009

Stanford University

Stanford, CA

Mechanical Engineering

3.8/4.0
