SUMMARY

Highly motivated and experienced Data Center Facilities Engineer with 8+ years of experience in designing, building, and maintaining data centers, with a strong background in electrical and mechanical systems, and a proven track record of reducing energy consumption by 25% and increasing uptime to 99.99%

SKILLS

- Data Center Design
- Electrical Systems
- Mechanical Systems
- Energy Efficiency
- Project Management
- Team Leadership
- Communication

EXPERIENCE

Data Center Facilities Engineer

Google

Jan 2018 - Present

California, USA

Design, build, and maintain data centers, ensuring 99.99% uptime and reducing energy consumption by 25%

- Managed a team of 10 engineers to design and implement data center infrastructure
- Collaborated with cross-functional teams to develop and implement data center strategies
- Conducted site surveys and assessments to identify areas for improvement
- Developed and implemented plans to increase energy efficiency and reduce costs

Senior Facilities Engineer

Microsoft

Jun 2015 - Dec 2017

Washington, USA

Led a team of 5 engineers to design, build, and maintain data centers, resulting in a 30% reduction in energy consumption and a 25% increase in capacity

- Designed and implemented data center electrical and mechanical systems
- Conducted regular site visits to monitor and troubleshoot data center operations
- Developed and managed budgets for data center construction and maintenance projects
- Collaborated with vendors to procure and install data center equipment

EDUCATION

Bachelor of Science

Stanford University

Electrical Engineering

Jun 2010 - Jun 2014

California, USA
