SUMMARY

Highly skilled and dedicated Emergency Room Nurse with 8 years of experience providing top-notch patient care in fast-paced environments. Proven track record of improving patient outcomes, reducing hospital readmissions, and promoting effective teamwork.

EXPERIENCE

Emergency Room Nurse

New York Presbyterian Hospital

Provide high-quality patient care in a level 1 trauma center, including assessing patients, developing care plans, and collaborating with interdisciplinary teams.

 Jan 2018 - Present  New York, NY

- Assess and prioritize patients based on acuity and urgency, ensuring timely and effective care
- Develop and implement individualized care plans, resulting in a 25% reduction in hospital readmissions
- Collaborate with physicians, pharmacists, and other healthcare professionals to ensure comprehensive care
- Utilize strong communication and interpersonal skills to educate patients and families on treatment plans and discharge instructions
- Apply critical thinking and problem-solving skills to respond to emergency situations, such as code blues and trauma activations
- Participate in quality improvement initiatives, resulting in a 30% decrease in patient complaints and a 25% increase in patient satisfaction scores

Emergency Room Nurse

University of California, Los Angeles (UCLA) Medical Center

Provided patient care in a high-volume emergency department, including triaging patients, administering medications, and performing various medical procedures.

 Jun 2015 - Dec 2017  Los Angeles, CA

- Triaged patients based on acuity and urgency, ensuring timely and effective care
- Administered medications, performed routine medical procedures, and assisted with emergency interventions
- Collaborated with interdisciplinary teams to develop and implement care plans, resulting in a 20% reduction in patient length of stay
- Utilized strong assessment and critical thinking skills to identify and respond to emergency situations
- Participated in hospital-wide initiatives to improve patient satisfaction and reduce hospital readmissions
