◆ Summary

Dedicated and compassionate Pediatric Nurse (RN) with 5+ years of experience providing high-quality patient care to infants, children, and adolescents. Proven track record of improving patient outcomes, reducing hospital readmissions, and enhancing family satisfaction. Skilled in assessing and managing complex pediatric conditions, developing personalized care plans, and collaborating with interdisciplinary teams to deliver exceptional care.

◆ Experience

Pediatric Nurse (RN)

Jan 2020 - Present

Children's Hospital of New York

New York, NY

Provide direct patient care to pediatric patients with various medical conditions, including respiratory, cardiovascular, and neurological disorders.

- Assess and manage complex pediatric conditions, developing personalized care plans to ensure optimal patient outcomes
- Collaborate with interdisciplinary teams, including physicians, therapists, and social workers, to deliver comprehensive care
- Implement evidence-based practices, such as pain management and wound care, to improve patient comfort and reduce complications
- Educate patients and families on disease management, medication administration, and healthy lifestyle habits, resulting in a 25% increase in patient satisfaction
- Participate in quality improvement initiatives, resulting in a 30% reduction in hospital readmissions and a 20% decrease in medication errors

Pediatric Nurse (RN)

Jun 2018 - Dec 2019

Pediatric Medical Group

Los Angeles, CA

Provided primary and specialty care to pediatric patients, including well-child visits, vaccinations, and acute illness management.

- Conducted thorough assessments, including physical exams, medical histories, and developmental screenings, to identify patient needs and develop individualized care plans
- Administered medications, vaccinations, and treatments, ensuring accurate dosing and monitoring for adverse reactions
- Collaborated with physicians and other healthcare professionals to develop and implement treatment plans, resulting in a 90% patient satisfaction rate
- Educated patients and families on healthy lifestyle habits, disease management, and medication administration, resulting in a 40% increase in patient engagement
