Summary

Highly skilled and dedicated Critical Care Nurse with 8 years of experience in providing top-notch patient care in intensive care units. Proven track record of improving patient outcomes, reducing morbidity, and promoting a culture of safety and excellence.

Experience

Critical Care Nurse (RN) Jan 2018 - Present

New York Presbyterian Hospital New York, NY

Provided high-quality patient care to critically ill patients in the ICU, including those with respiratory, cardiovascular, and neurological disorders.

- Conducted thorough patient assessments, formulated individualized care plans, and implemented evidence-based interventions to achieve optimal patient outcomes.
- Collaborated with interdisciplinary teams to develop and implement comprehensive care plans, resulting in a 25% reduction in patient length of stay and a 30% decrease in hospital-acquired infections.
- Utilized strong critical thinking skills to rapidly respond to changing patient conditions, resulting in a 95% patient satisfaction rate and a 99% compliance rate with hospital policies and procedures.
- Mentored and precepted new staff members, contributing to a 90% retention rate and a 25% increase in staff satisfaction.

ICU Nurse (RN) Jun 2015 - Dec 2017

Cleveland Clinic Cleveland, OH

Provided direct patient care to critically ill patients in the ICU, including those with sepsis, shock, and multi-organ failure.

- Developed and implemented individualized care plans, resulting in a 20% reduction in patient morbidity and a 15% decrease in hospital-acquired infections.
- Collaborated with physicians and other healthcare professionals to develop and implement comprehensive care plans, resulting in a 25% increase in patient satisfaction and a 99% compliance rate with hospital policies and procedures.
- Utilized strong communication skills to educate patients and families on disease management, treatment options, and self-care strategies, resulting in a 95% patient satisfaction rate and a 90% retention rate.
- Participated in quality improvement initiatives, resulting in a 10% reduction in patient length of stay and a 5% decrease in hospital readmissions.
